BE SEEN TO BE GREEN

Dear Parent / Guardian

As reported in our Freeston Enterprise Issue 7, December 2008 edition, a group of our Year 11 students have formed a 'Young Enterprise Company' under the guidance of Mr Vickerman (Head of Business Studies). Their aim is to persuade socially responsible people and companies to reduce their carbon footprints by paying to plant trees in their name. The business initiative has been formed with the help of the Woodland Trust to help conserve the UK's woodland area. Their efforts are part of a National competition to promote their business but also to address the problems of Global Warming.

To make all our students aware of Year 11's ethical issues, the school is planning to hold a '**GREEN DAY**' on Friday 13th February. Pupils can promote the day and join in the fun by wearing something 'Green!' In return we are asking all families to contribute £1 each towards this important issue. This donation will be used to help our business raise awareness of ethical issues at Local, National and International levels. Our Year 11 Enterprise Group are totally committed to this event and hope all our FBEC students will enjoy 'Making a Difference' to our environment.

Please hand in your donations to your Form Tutor on the morning of Friday 13th February. The Year 11 Enterprise Team will look forward to seeing you all on this 'Non-Uniform Green Day'.

Yours faithfully

G Metcalfe
